

Artpark

Fairy House Festival 2025

The Story

The fairies have gathered once again to play, laugh and frolic in the forest and along the river at Artpark. Many have come here to build their extraordinary homes and houses in the woods. Behold, this year a troupe of fairies has inquired, just what dances do the humans do? What music do they make? How do they celebrate? And so it is that this summer humans from all over the world have come together to celebrate as humans do with their dances, music and treasured traditions to showcase to the fairies that they too can make merry.

The fairies have used their elemental magic to charm and transport these humans from their distant lands, bringing them all together in this Niagara forest where many cultures can celebrate. Hidden gems, fantastic fruit and fairy enchantment satchels must be found before the festival is through in order to bring the humans back to their homes. Come ready to help us find these lost treasures, share your traditions with the fairies and bask in the glow of their fairy glamour as all bring fantasy and delight.
